Panasonic

Stingray 4
Point-of-Sale Solution

Next-generation QSR Point-of-Sale terminals from Panasonic combines powerful and stylish hardware with legendary service and support.

Provide customers speed-of-service while empowering employees through familiar touchscreen gestures.

FORGED FROM DECADES OF EXPERIENCE IN POINT-OF-SALE
From the leaders in rugged technology

The Stingray 4 fuses a powerful computing and expandable hardware in a compact durable format, designed specifically for demanding, fast-paced restaurant and retail environments. Available with multiple performance levels, mounting options and peripheral choices, Panasonic's flexible Stingray 4 terminal can adapt to the specific needs of your operation.

EASY-TO-USE INTERFACE
**Built to work seamlessly with your POS software**

The Stingray 4 is software agnostic or can integrate with iQtouch, Panasonic's comprehensive QSR POS software that promotes accurate and efficient order entry while enhancing overall guest experience.

SPACE-SAVING DESIGN
Built-in AC adaptor attributes to a small footprint

FLEXIBLE INSTALLATION
Maximize usability with multiple mounting options

EXPANDABLE
Available options including external displays and fingerprint reader

SERVICE & SUPPORT
Depot Service & Support included standard

Panasonic

POWERFUL HARDWARE
FLEXIBLE PERFORMANCE MODELS

The Stingray 4 is available in four standard configurations that match with your operation's POS needs. Flexible options include storage and memory. Further streamline operations with available Bluetooth, Wi-Fi and powered USB ports.

This terminal can be installed with a variety of available mounting options to maximize usability in your operation's space.

TRUSTED DURABILITY
FROM THE INDUSTRY LEADERS IN RUGGED

With a history of unrivaled durability, Panasonic's next generation of point-of-sale terminals are spill and dust resistant. Boasting a modular structure, components are easily accessible for servicing to minimize downtime.

SOFTWARE AGNOSTIC
SOLUTIONS THAT SUIT YOUR OPERATION

The Stingray 4 is software agnostic or can integrate with iQtouch from Panasonic. This software streamlines order-taking in a conversational method, while helping to reduce errors and wait times at the counter and drive thru…all while maximizing restaurant output.
